# Inspection & Quality

API Q1, API 7-1, ISO 9001, OHSAS 18001 and Intelliserv™ COILGROOVE Certified

MNB Precision is committed to providing its customers with the latest cutting edge technology.

Combining the most technologically advanced machinery with highly skilled engineers, state of the art CAD/CAM capabilities and dedicated inspection and quality departments we are capable of machining exotic materials to the exacting standards required.

MNB Precision assure customers of a quality product which can be immediately deployed into operation.

Our commitment to delivery of quality products is underpinned by our continued investment in the latest CNC machines and CMM inspection equipment. Our temperature controlled, central metrology area houses three CMM's and a team of skilled inspectors.

## Milling

- SORALUCE FL8000
- SORALUCE TA-35 AUTO
- CORREA XPERTA 25
- HARTFORD PRO 3150AG
- HARTFORD VMC 2060
- HARTFORD HCMC 15
- HARTFORD PRO 1000

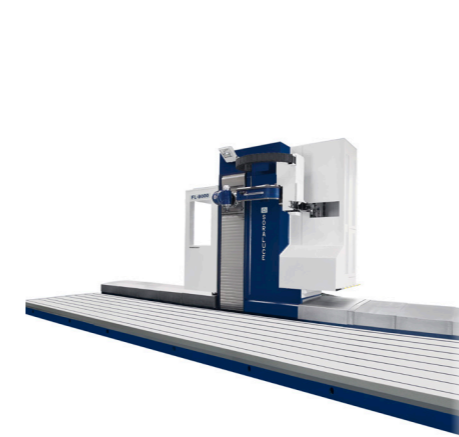

## Turning

- DOOSAN PUMA 800
- DOOSAN PUMA 700
- DOOSAN PUMA 480XL
- DOOSAN PUMA 480L
- DOOSAN PUMA 400L
- SUPERMAX

## Additional

- JIG BORING & MILLING
- MANUAL MILLING
- MANUAL TURNING
- SPARK EROSION
- SODICK WIRE EROSION
- GRINDING
- SHOT PEENING
- COLD ROLLING API CONNECTIONS
- NDT

Our CMM capabilities include our 4.2 meter Zeiss Accura II, Mitutyo Euro-C 9166 and IMS Impact.
